

Bora Youn

XR UX Researcher

I design and study interactions in immersive environments, with work spanning AI audiences in XR, interactive storytelling, and digital therapeutics. My projects draw on scenography and sound to shape how people experience virtual spaces.

2026 / AWARD — **Excellence Award (Ducogen) / Re:hear, Team Audi**
AI & XR Service Developer Competition, Adult Developer Division — Official results

EDUCATION

2024–present — **Doctoral Studies in Design, Seoul National University**
Industrial Design, College of Fine Arts. Coursework completed February 2026.

2012–2021 — **MFA in Stage Design, Korea National University of Arts**
School of Drama. Thesis on extending stage space in shadow puppetry.

2007–2011 — **BFA in Stage Design, Korea National University of Arts**
School of Drama.

2004–2007 — **Dukwon High School of Arts**
Fine Arts, Western Painting.

RESEARCH PRESENTATIONS

Jan 2026 — **HCI Korea 2026 | First author, oral presentation**
From Excretion to Listing: A Critical Interaction Design Exploring the Assetization of Gut Data

Jan 2026 — **HCI Korea 2026 | First author, oral presentation**
Designing Conversational Pauses in VR Q&A: How Social and System Cues Shape Trust Formation

Jun 2024 — **Korean Society of Design Science | First author, oral presentation**
Early dementia detection through VR serious games for assessing cognitive and physical function.

CERTIFICATIONS, RESIDENCY AND TRAINING

2022 — Miro Artist Residency, Miro Center

2021 — Unity Certified Associate: Game Developer

2021 — Level 2 Arts and Culture Education Instructor, Ministry of Culture, Sports and Tourism

2020–2022 — Selected training: ACC Unreal Engine bootcamp, ARKO Art Talk, VR/AR/MR development, and Seoul Foundation for Arts and Culture Connect Plus.

TEACHING EXPERIENCE

2026 — **Dong-A University | Instructor**
Virtual Reality (VR) and AI Capstone Design

2026–present — **Korea National University of Arts | Lecturer**
XR Design I and II, Department of Design

2025–2026 — **Korea National University of Arts | Lecturer**
Generative Design I and II, Department of Design

2022 — **Mentor and instructor in interactive arts**
AR Player Lab, Art Collider Lab (Unity and Arduino), and My Glass Child

2021 — **Researcher and lead instructor in XR arts education**
Body Orchestra in W Planet and The Forest Is Coming: I, Robot

PROFESSIONAL AND CREATIVE EXPERIENCE

2026 — Majung (Welcome), interactive media design; If You Could Eat a Memory?, 3D design.

2025 — Shadow-puppet theatre and Floral COMA, art direction; Gut Asset Management Corporation, creative technical direction; PAUL, shadow-theatre art direction.

2024 — BrainWave, AI/VR cognitive assessment: XR content planning and product design.

2022 — The Lost Room, immersive VR theatre: creative direction and programming. AttnKare-D and BlueKare-T: product design and art direction.

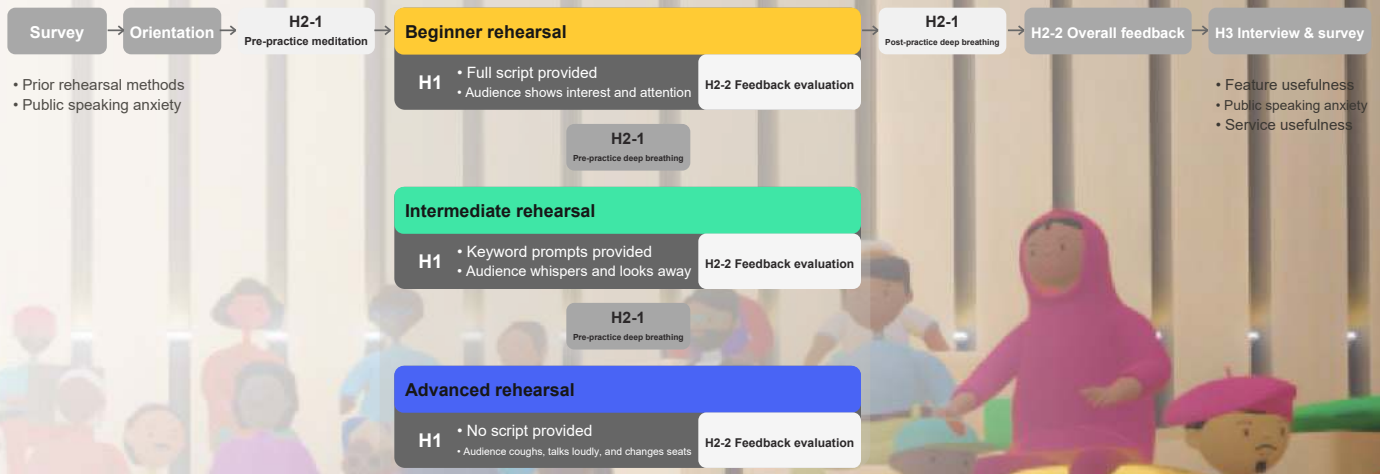

2021 — The Door: VR programming. No-normal in Wonderland: game and level design and programming. Evolution of Love: costume design. Sound Walk: planning and art.

03

Digital healthcare: Designing experiences for healthier lives

Brave

VR training for public speaking anxiety Planning & product design

My role

Planning	UX and level planning
Product design	User research, analysis, and level design + Interaction design

Project details

Team	MentalVerse
Resolution	3664 x 1920
Year	2023

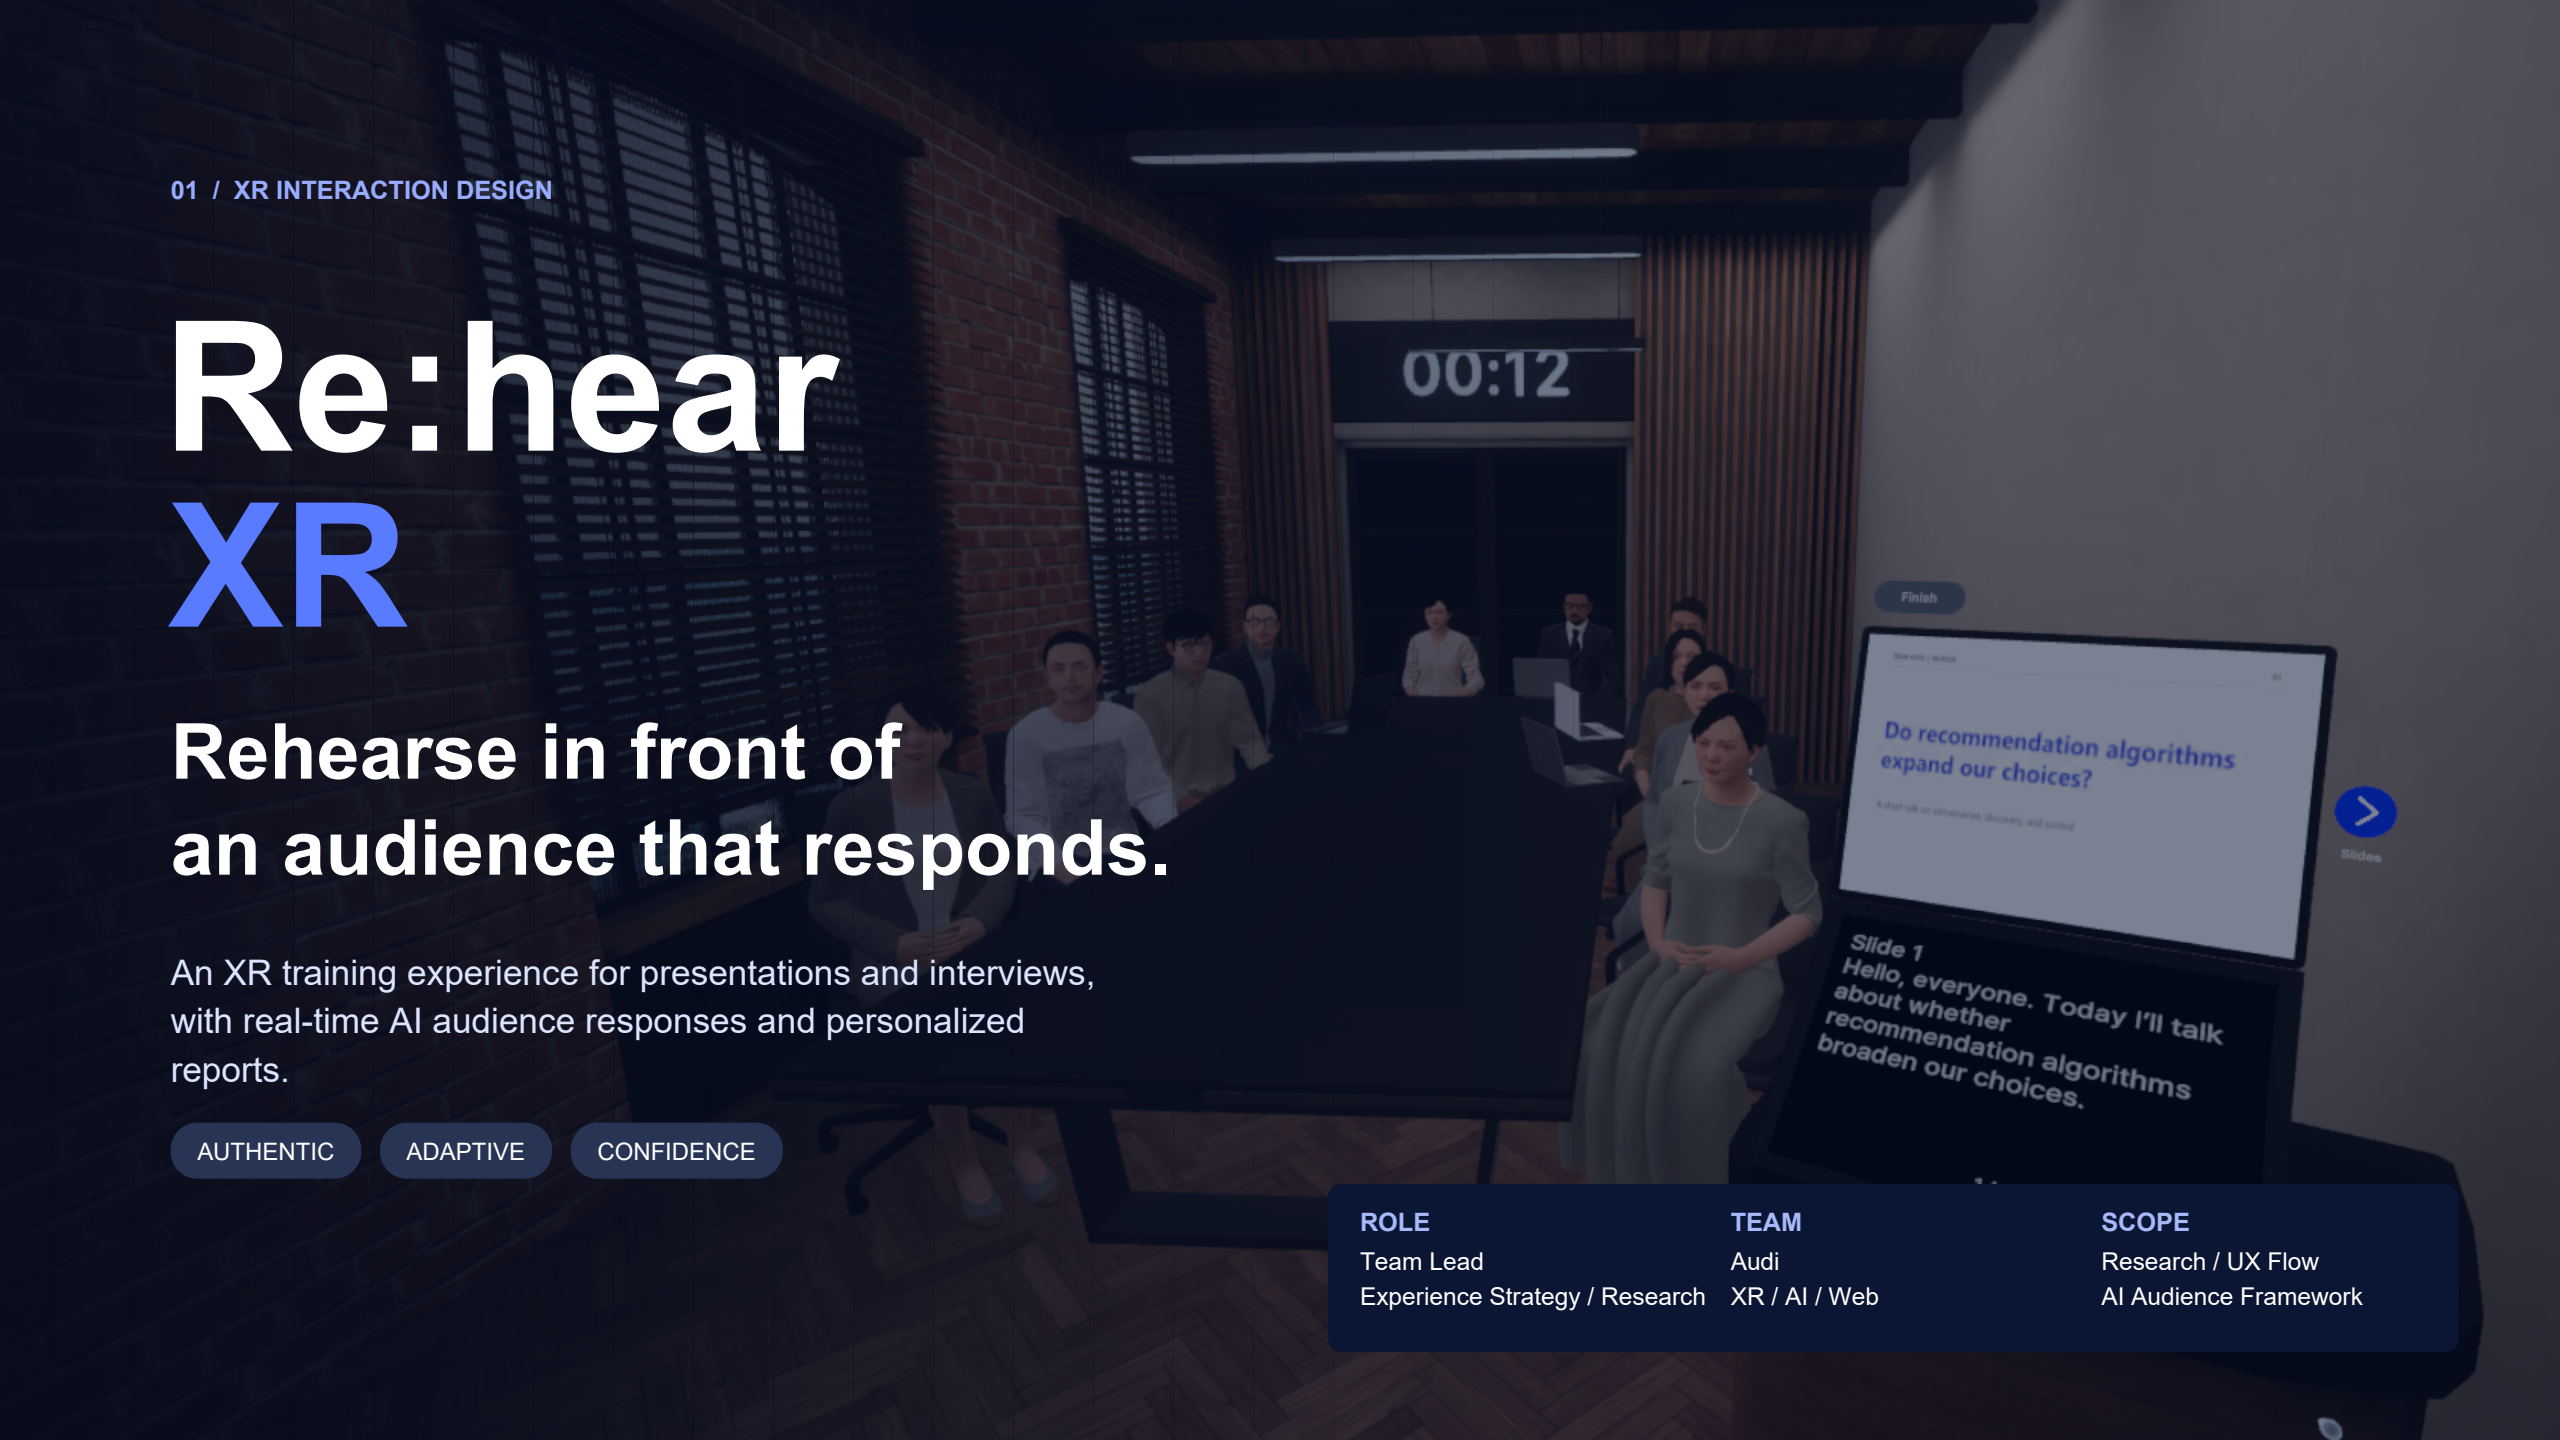

01 / XR INTERACTION DESIGN

Re:hear XR

Rehearse in front of an audience that responds.

An XR training experience for presentations and interviews, with real-time AI audience responses and personalized reports.

AUTHENTIC ADAPTIVE CONFIDENCE

ROLE	TEAM	SCOPE
Team Lead	Audi	Research / UX Flow
Experience Strategy / Research	XR / AI / Web	AI Audience Framework

02 / WEB UI AND SESSION SETUP

Setting up an XR session on one screen.

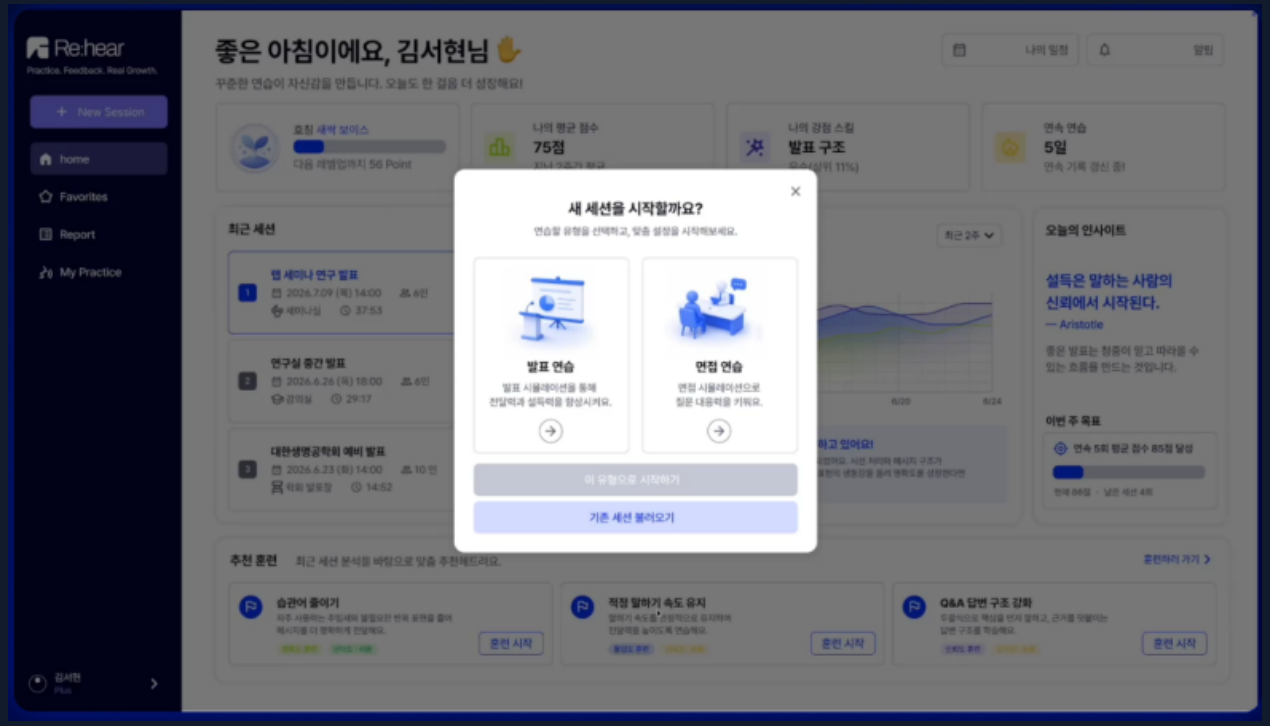

Choose a presentation or interview first, then set the conditions step by step before entering the XR session.

01 **Choose a goal**
Presentation or interview

02 **Set the conditions**
Environment, difficulty, and audience

03 **Connect web and XR**
Enter the session with a PIN

PROTOTYPE / NEW SESSION

The dashboard preserves its information hierarchy while making the selected option and the next action easy to distinguish.

03 / FEEDBACK LOOP

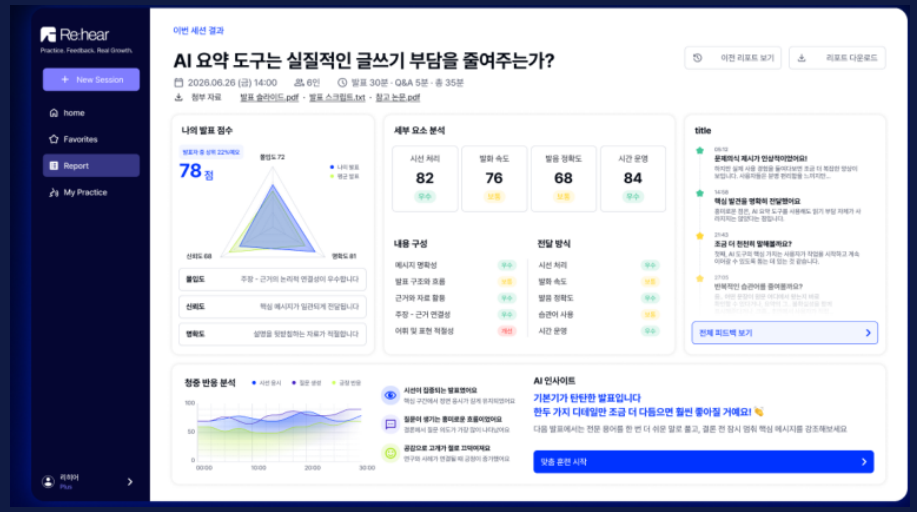

Review the results.
Use them to plan the next rehearsal.

Review the evidence behind the performance results, then turn weaker skills into targeted practice.

01 / REFLECT

Report

Compare presentation scores, individual performance measures, and audience responses to identify where to improve.

02 / REPEAT

My Practice

Turn weaker skills into targeted exercises and review your practice history.

01 SET 02 REHEARSE 03 REFLECT 04 REPEAT

N = 9 / XR Media Center user test / August 15, 2026 / Observation, 5-point survey, and interviews

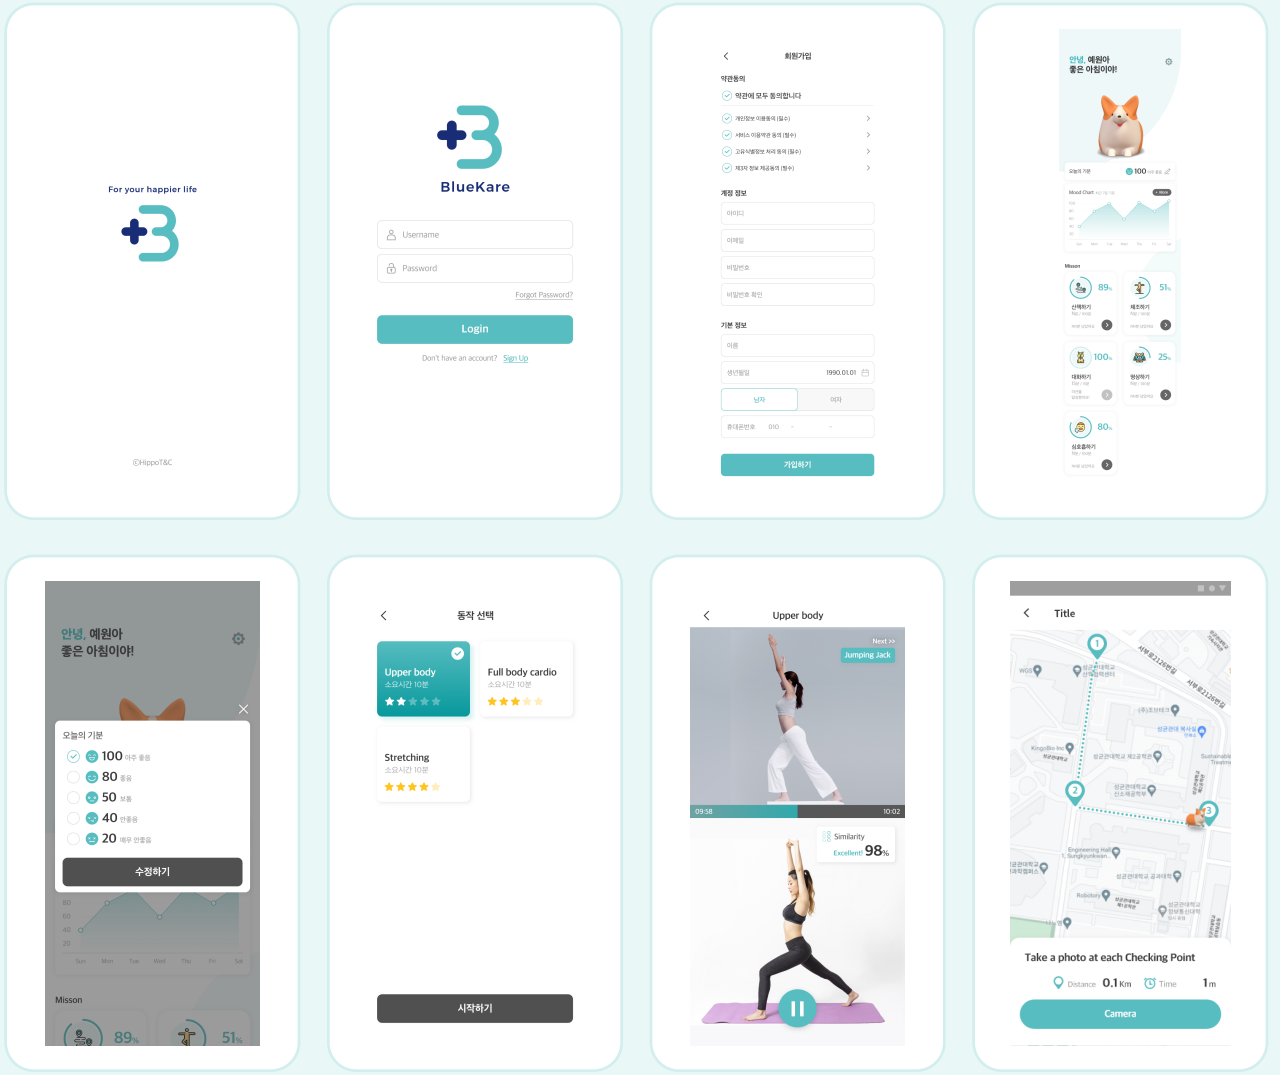

01 / DIGITAL THERAPEUTICS

BlueKare

Small actions today.
A routine for recovery.

Check in with a 3D corgi, complete daily therapeutic activities, and track changes over time while managing depressive symptoms.

HippoT&C | Product Design / Art Direction | Mobile / AR / 3D

01 Mood check

02 Daily activities

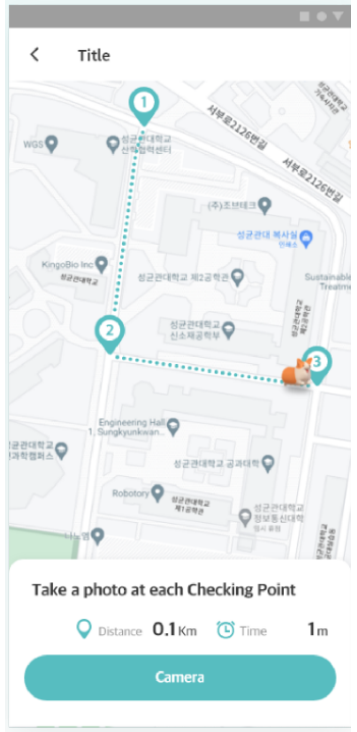

03 Corgi reward

04 Tracking and reflection

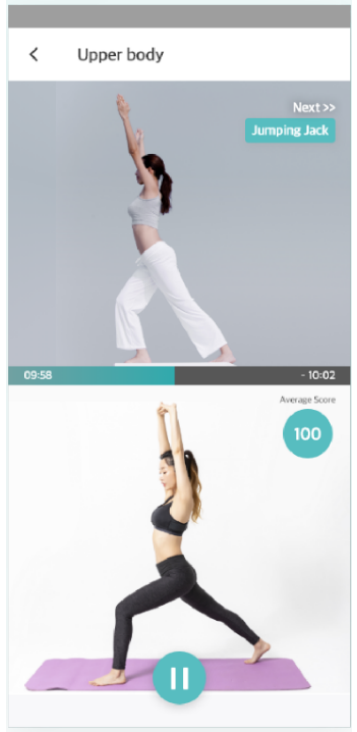

Different activities.
One recovery routine.

Five therapeutic activities share a predictable sequence, from choosing and completing an activity to receiving feedback, earning a reward, and logging the experience.

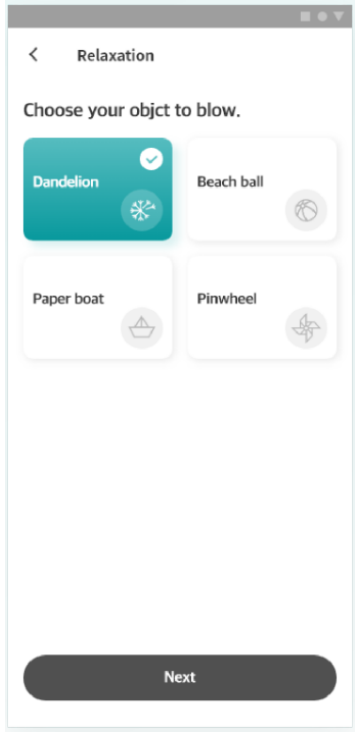

01 Mood check | 02 Choose an activity | **03 Complete the activity** | **04 Instant feedback** | 05 Corgi reward | 06 Log and reflect

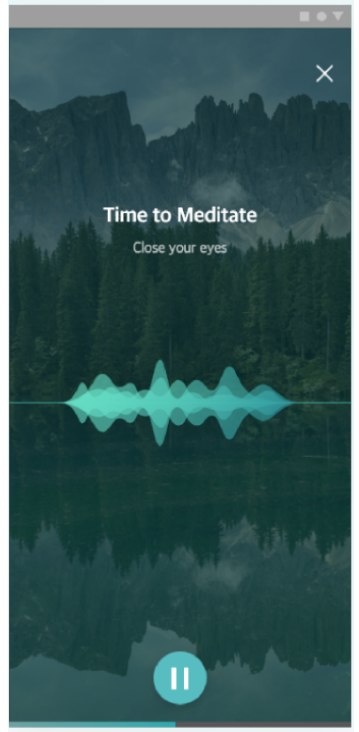

01 Walking

02 Exercise

03 Breathing

04 Meditation

05 Conversation

03 / UX FLOW

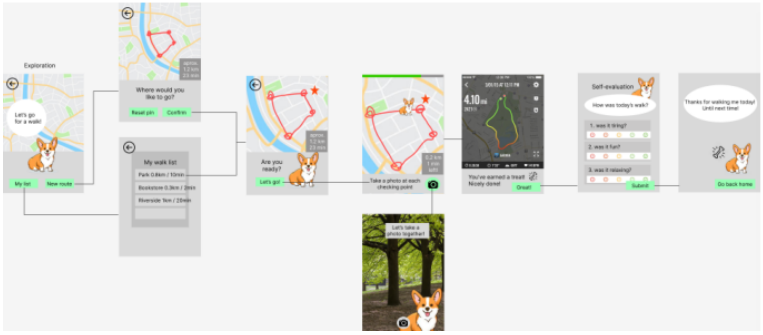

Making therapeutic activities predictable.

Each activity keeps its distinct interaction, with a consistent way to begin and finish.

01

Walking

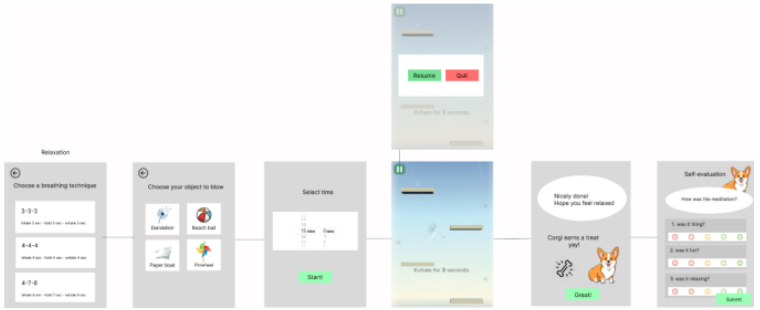

Set a route, visit checkpoints, take AR photos, and log the activity.

02

Breathing

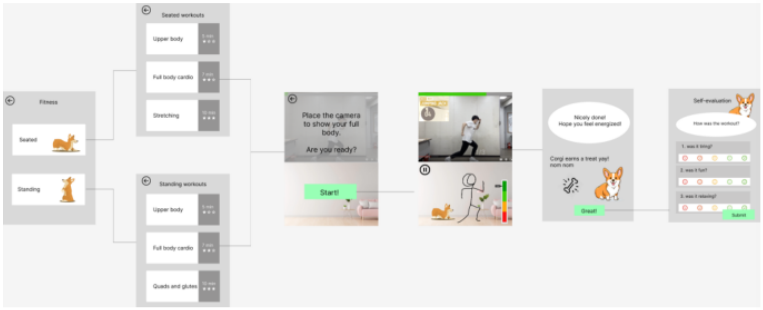

Choose a breathing method, see the object respond, receive a reward, and self-assess.

03

Exercise

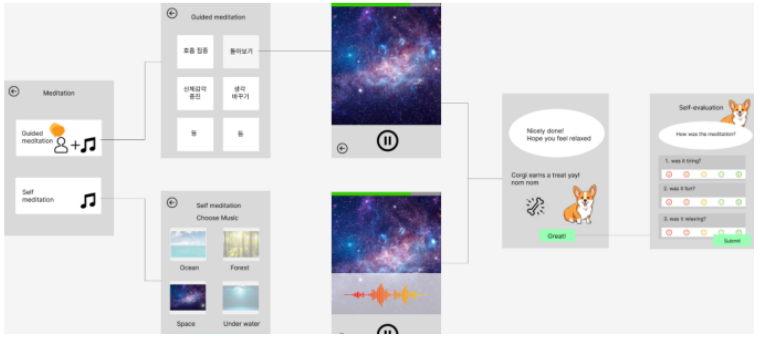

Choose a movement, align the camera, receive posture feedback, and view your score.

04

Meditation

Choose a guide, complete the session, receive a reward, and self-assess.

CONSISTENCY A common start and finish

FEEDBACK See results immediately

MOTIVATION Corgi rewards tied to tracking
